Pactura.

Expert advice, personal service.

COMPANY OVERVIEW

Producer compliance, taken off your desk.

Independent, expert advice through personal service.

YOUR OUTSOURCED PRODUCER COMPLIANCE DEPARTMENT / PACTURA.CO.UK

WHAT WE DO

Producer compliance, made simple.

Pactura exists to make producer compliance clearer, simpler and more commercially manageable.

At a glance

- Expert advice without generic guidance or unexplained fees.
- Personal, practical support shaped around your business.
- Independent, fee-only advice focused on your commercial interests.
- Our objectives: save time, reduce costs and remove risk.

Pactura exists to make producer compliance clearer, simpler and more commercially manageable. We support businesses that want expert advice, personal service and practical help instead of generic guidance, unexplained fees and avoidable complexity.

We take producer compliance work off your desk, so you can focus on running your business.

Save time. Reduce costs. Remove risk.

Why we exist

01 SMEs are underserviced and overburdened.

The producer compliance regulations are complex and compliance schemes are built for scale. SME producers are often left to interpret regulation alone with limited resources and expertise, often unsure whether they're doing the right thing.

02 Large producers overpay and struggle with data.

Significant evidence fees, expanding data requirements and limited internal expertise mean time and money are routinely wasted on inefficient compliance arrangements.

Pactura solves both. We are independent, fee-only and commercially focused to reduce your compliance burden and remove workloads from your desk.

What we cover

Pactura supports businesses across all UK producer compliance regimes. We help manage the practical work behind compliance, including obligation checks and producer registration, data collection, classification and reporting, scheme selection and cost review, evidence and PRN support, takeback and end-of-life obligations, audit preparation and ongoing regulatory monitoring.

UK PRODUCER COMPLIANCE REGIMES

Packaging

Producer responsibility, data reporting, EPR, PRNs and compliance-cost support.

WEEE

EEE producer registration, reporting, takeback and end-of-life compliance obligations.

Batteries

Portable, industrial and automotive battery obligations and compliance support.

One partner across your producer compliance obligations.

OUR CORE SERVICES

Practical support across four core services.

Pactura offers practical support across four core services. Each service is designed to reduce the time, cost and risk involved in producer compliance.

Compliance Health Check

We review your current position and identify which packaging, WEEE or battery obligations apply to your business. We check your registrations, data approach, classifications and scheme arrangements to identify gaps, over-reporting, under-reporting or unnecessary cost.

Best for: businesses that want to understand their obligations and get clear answers.

Outsourced Compliance Department

Our most comprehensive service. Through our Annual Compliance Support Plan, we act as your external producer compliance function, managing data reporting, compliance obligations, evidence contracts, scheme membership, and regulatory monitoring.

Best for: businesses that want compliance handled properly without building internal resource.

Independent Scheme Brokerage

We place you with the best compliance scheme for your needs to maximise value and service. Our advice is fee-only and independent. We take no commission from compliance schemes, so our focus stays on representing you.

Best for: businesses that want to check whether they are overpaying or receiving the right level of support.

Audit Defence & Regulator Support

We help prepare your data, review your methodology and support you if your compliance position is questioned. We identify the evidence needed to defend your submissions and help explain the logic behind your reporting.

Best for: businesses that need confidence before an audit, regulator query or internal review.

NEXT STEP

Let us take producer compliance off your desk.

Tell us about your business and where you need support. Our advice is personal, practical and shaped around your specific producer compliance needs.
